Dead Can Dance - *Avatar*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Impaled Nazarene - Post Eclipse Era

*I taught myself, of hatred and scorn
Living hell, need to recharge
Reality strikes, I do understand
It's clear now that you can all just fuck off and die*

*Pretentious, back-stabbing, two-faced world
Post eclipse era thus dwell in joy*

The lights go out in a different world
The place where you live today
To get away from all these dreams
Where I have chosen to stay

What I have now is much better
Than everything you could have given

Cadaverous Condition - *Black*

Bonnie "Prince" Billy cover.

**Black, you are my enemy
And I cannot get close to thee
Our life is ruled by enmity
And I can't weaken that
The only way that I can see
Is to hold you close to me
To love you for it's meant to be
I weaken your attack**

Cadaverous Condition - *Sleep On The Wind*

**I go away what they sing they never do
I go away forever going home
I go away back to where I came from
I fade from view just like you**

**I go away to places you will never know
I go away on ships and trains and aeroplanes
I go away my path remains unclear
I go away towards the lesser travelled seas**

**In our life we are alone
On our own we sleep on the wind**

Cadaverous Condition - *The Once And Future King*

**Open the door, a knock so pure
In comes the seraphim
Teach me things, I already know
Filled with adrenalin
Cut him down, yet he grows back
And makes my blood sing**

**It beckons to us all
Sometimes we cannot hide
The most unusual thing
The once and future king**

Cadaverous Condition - *My Ocean Is Shipless*

**And now snow does fall where Strindberg walked and lived
So much has been out of reach but behind the sun is another one**

**Speak of what shines bright tonight but not tomorrow
It is good that I don't find words, words destroy the lonely things**

**The gods I worship are inside
Is this the last song of my life
I have wasted so much time
And the starry sky above**

**The lonely have no right to share the summer sun
Let's stay inside and do nothing, this is it, my suicide queen**

**The reek of flesh sickens me now, the past betrays
A decision my body has made, this wave crashes above my head**

**The gods I worship are inside
Is this the last song of my life
I have wasted so much time
And the black sky inside**

I have wasted so much time

**The gods I worship are inside
Is this the last song of my life
I have wasted so much time
My ocean is shipless**

**There is no road
You make your path as you walk**

Cadaverous Condition - *I Woke From A Sleep That Lasted All My Life*

**I never speak about what treasure I have found
I outlived my past and silence will make it last**

**Down the hill from where I live
There's a road that I never take
Have I gone out or did you come in
I can't remember now that I'm awake**

**You pulled me away and what more can I say
If it was meant to be it's now that I am free**
