All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Accept - Winter Dreams

The last and the weakest song of the album. Since my version is remastered with bonus tracks, this isn't actually the last song, there's two live songs after this as bonus tracks.

Yeah, as you could figure of my "nickname" for avantgarde, I'm not really a fan

Accept - Metal Heart

“

The song "Metal Heart" is well known for containing the cover of two famous classical themes: Tchaikovsky's "Slavonic March" (in the intro) and Beethoven's "Für Elise" in the main riff and solo.
