I'm too lazy to translate the title.

I actually prefer to leave the song names in their original language.
And their creative words, too.

Like with Icelandic song names.

I prefer to translate when it's Japanese or such languages, because how are you supposed to find the song later on youtube?

I got lazy because I felt all alone. ☐

No, I was swapping music with my dear Vulty which is where that Russian song came from ☐

You ever heard these guys, Luveria? They're black metal I believe. For some reason I've liked the album my dad listened to a while ago (And recently started listening to). This song is like acoustic black metal.
