Card-carrying villain state.

### *The Kingdom of Tetchland*

*An almost-absolute Catholic monarchy that seceded from Sweden during the Reformation. It's something of a Western Hong Kong (pre-2019), being a small, densely-populated urban region that enjoys wide economic freedoms, modern amenities, and wealth, but holds a strong dedication to tradition with regards to religion, military, and national pride. It's on a small, fictional archipelago halfway between Sweden and Poland.*

Some kind of totalitarian dictatorship

**Okres Katowice (Katovice district) is a protectorate within the newly formed Upper Silesian Region (Hornoslezský kraj). The Upper Silesian Region (formerly Silesian voivodeship) was transferred from Poland to the Czech Republic after 2020 Polish presidential election (12.07.2020).**

All pro-Czech/pro-Silesian views are my RL political views. Like many Silesians, I feel that Poland treats us terribly. There are many Silesians, me included, who think that we would do much better as part of Czechia and that being part of Poland is/was a terrible mistake.

Don't use NS stats except for changes in economics, political freedoms, or civil rights which may eventually make their way into written canon if I get tired of worldbuilding.
