AN is an extremely industrial nation. I'd like to imagine it like Khmer Rouge's Democratic Kampuchea, but with modern machinery. It also really emanate 1984 vibes.

A federal left-wing nationalist country situated in a fictional world in the extended Cold War timeline. Authoritarian by Western standards, Libertarian by Eastern standards. Atomic Tech - The year is 1978.

In process of retconning, especially regarding geography and demographics.

They are really big fan of jaguars and probably other african animals. Also, they are fans of military uniforms and furies, so they tried to dress a jaguar with one. LOL. Cool banner though, it's really original nontheless.

- Snowland / the Snowish Republic -

Snowland, officially the Snowish Republic, is a country located in Northern Europe. Snowland runs on ~~democratic socialism~~ potentially the DOTP, unsure if that terminology is right. I'm not sure what I'll do with the Snowish Republic yet. Snowland is one of the nations of the world where there are both humans and anthropomorphic animals, and the nation is considered to be the best in the world when it comes to treatment of anthropomorphic animals.
