Monkey 82's Time Machine returns from the 1300s, unfortunately crushing monkey 4968

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 4967 and a super intelligent snail both got a million dollars and became immortal. The super intelligent snail always knew where monkey 4967 was, and if the snail touched monkey, monkey would die.

Monkey 4967 and the snail's chases became ever grander in scale until in the 5th millennium the Great Snail Space Fleet set sail at 92% of lightspeed to catch up with the Monkey Refugee Fleet which was travelling at 70% of lightspeed to Sagittarius A, the black hole at the center of the galaxy, in an attempt to put Snail into the inescapable event horizon by knocking him off course with sufficiently fast debris. Monkey 4967 was working under the assumption that it was not possible to build a ship faster than his due to the limits of radiation shielding.

The Snail Fleet quickly caught up to the Monkey Fleet, which was simply unable to withstand the vastly superior firepower of Snail Fleet. Monkey 4967 put his ship into a hard burn to accelerate to near-lightspeed for as long as the ship's components wouldn't be fried by radiation, ejecting himself out of the smoldering wreckage into the void of space.

Monkey 4967 was eventually slowed down to a reasonable speed by the freakishly improbable event of hitting a planet in the void of space, an event which he calculated was next to impossible. Snail caught up and touched Monkey 4967.

Monkey 4964 was a regular monkey, but had obtained anomalous powers from other threads through a freak accident where he tried punching air, but instead accidentally broke a very small part of reality from the ten thousand monkey genocide thread. Needless to say, with the prevalence of the systems tasked to keep threads stable and erase spacetime anomalies(specifically the forces of the NSMTBS and the forces of the NSSTAES)he didn't last very long with those powers due to him being erased from all forms of existence by the NSSTAES.

It was 11 of September, 3001. Monkey 4963 got up. He was one of the first intelligent monkeys in the grand doge empire. He had a job in world doge center. As always, monkey 4963 did his daily morning routine and walked into his job. At 8:43, he hears screaming and chaos on the streets. He says: "nah it's probably nothing.". He continues to do his work. At 8:46, he hears loud crashing from the northern tower. Massive shakes go through the southern tower. 4963 starts panicking, and tries to evacuate from the tower. However, he tries to take the most valuable things with him from his office. At 9:03, he was at the 5th floor. He hears very loud crashing noise from the upper floors. He thinks: "Oh god, what is happening?" Then, he hears nothing, just silence. Silence, and monkey 4963.

Monkey 4962 is very angry and kills 4961 to 4947

Before dying himself, Monkey 4961 set up a destiny bond with the enraged monkey 4962 where if he dies, then monkey 4962 dies. Monkey 4962 didn't realize that he was fooled by monkey 4961 and as such, died when he killed monkey 4961.

Monkey 4959 tried to Google "NDjamena population density" but accidentally typed "Child p**n" in the search browser, went to images, and downloaded the first 5 pages of results. He was then shot by an assassin from Chad for misspelling their capital.

Monkey 4956 jumped with such force they collapsed their 2nd floor, and their first floor, now accompanied with a bath tub and kitchen appliances, fell into their death trap dungeon they kept in their basement, in an ironic twist of fate.
