This song, at least when it kicks in, seems to be a happy song.

They haven't really released an album with new songs for like, 4 years, because they went on hiatus for a while. But during that, Jonsi, the singer did some solo work though ([We Bought A Zoo](#) soundtrack and the [Go](#) album, with an awesome wardrobe with it). They did release a live album though. The new album comes out in 4 days. The crazy thing is, they came from doing nothing to apparently supposedly having 2 albums worth of work. Because it is rumored they are releasing another album next year, that is a fair amount different then this new one, and it's already freaking done....

What's going on- Marvin Gaye.

"As the Americans learned so painfully in Earth's final century, free flow of information is the only safeguard against tyranny. The once-chained people whose leaders at last lose their grip on information flow will soon burst with freedom and vitality, but the free nation gradually constricting its grip on public discourse has begun its rapid slide into despotism. Beware of he who would deny you access to information, for in his heart he dreams himself your master."
