I'm just a simple man trying to make a country on the internet. And yes I do not use NS stats.

The Karevkan Soviet Union is an alternate history Russia whose history is mostly the same (although under a different name) until the Karevkan Revolution in 1917. More progressive in its policies than the IRL Soviet Union it has a market socialist economy and more civil rights and freedoms.

Highly prosperous dystopian capital in future, may be present as a warning for current generation that development must also take environment & sustainability into account otherwise there may be a growth but lack of green & happiness in general.

Welcome to The Alpes a Septentrionali Imperium, a nation where I brutalize and adapt Latin and French History to my needs to get my Ultraroyalist Absolutist French Monarchy with a vaguely French-sounding fictional royal family to work.

Don't ask about the flag, it has something to do with RMB RP that I'm involved with.

No, this nation and its flag is **NOT** based off Minecraft, Terraria, or anything of the sort. I made the flag using an app on my phone (...and ran out of space). Please stop making relations to such, as it has become highly irritating to be compared to such. The art is of my own creation, and of my own ideas, not from a pre-existing game. Thank you.

Edit: Realized that primary banner != flag. The AN seems to like anime, in that case.

And *they* have a weird fixation with sphere shapes in their architecture. And I've no idea what to make of that.
