Nile - *Utterances Of The Crawling Dead*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Hmm, not quite as good as the previous, but damn, it still has some good songs. They feel surprisingly consistent for a band that pretty much plays the same style every album.

Where No One Goes by Jonsi

I am very far left-wing socially and economically in between capitalism and communism.

I'm sort of a "Radical Centrist", I guess. I support the Australian Green Party most out of any political party, though I don't fully agree with anyone.

Quilava is by far my favourite pokemon as it is cute and badass at the same time and has a fire mohawk!

Friends of Dean Martinez-A Place in the Sun

Okay, so actually listening to their albums in chronological order, this, and seemingly the end of the last album, is apparently when they transfer more into the "weirdness" that I remember them having.
