They seem to have a Moslem majority with a significant Christian minority. They use the Astorian Pound as their currency, and have a time zone of UTC - 2. Wait... UTC -2? How is there a Moslem island with 180 million people somewhere in the middle of the Atlantic Ocean?

actually, it's about 50:50 Muslim / Christian, with a small percentage being atheist - but don't ask how or why we're located between the UK and America

They were a minor nation, until they became a pretty OP nation. They were founded by Talos the Great.

Their Minister of Supplies is Kim Fatty; an apt name as he maintains his weight by having close contact with said supplies, which also prove that there is food in their nation.

The thing that they are a liberal paradise.  
Everyone has all the rights on the world.

Please please please please read my Factbook. It's short and to the point. You will get the premise of this nation perfectly by reading it.  
The Caliphate is not in Iraq. We are not the ISIS. It's located as a union of Hejaz, Somaliland, Somalia, Yemen and North Sudan.

They are quite oppressive, especially to women.  
This includes: having the legal right to marry a women aged , having more than 1 wife, and I don't even want to get started on the rape section.  
Overall, women have no right whatsoever in this nation.

They have a population of around 200 million people, mostly composed of Arabs and other ethnicities.

Their foreign relations compose of being against the USA, since they have bombed their nation and have supported the Persians and the Germans. However, the Soviets are seen more as a trade partner than an ally or an enemy.

Their leader, "Char Aznable", is known for, "Not having much of a personal life; mostly dedicated to his work, Full Frontal does take pride in occasionally going and practicing to test his abilities to their limit, until he can use it to unlock the future for his people. Liv-Tyler Rumianka Khomiakov gave a philosophical analysis about capitalism in the 1950s about how capitalism, if it's flaws and "disharmonies" were to be less and less over time, she would happily wish for it to go on. However, she did also say that if it were to clash violently with the many parts of itself, and create more chasm (which i assume is between rich and poor), then she views that capitalism should finally die.
