I'm listening to BBC Orchestra. "La La Song" is torture!!! ☐

98% of all Internet users would cry if Facebook broke down. If you are part of that 2% who simply would sit back and laugh, copy and paste this into your sig.

I have that with songs here and there. The strange part is they usually aren't my favorite songs, either, and something I would overall rate maybe a 6 or a 7. Like this one song from the movie Janie Jones that I listened to a LOT for a while, even though it wasn't an amazing song by far. I think it was just good and relaxing for me at the time.

[Name of God \(Complete Choral Version\) - The Big O OST by Toshihiko Sahashi](#)

"As the Americans learned so painfully in Earth's final century, free flow of information is the only safeguard against tyranny. The once-chained people whose leaders at last lose their grip on information flow will soon burst with freedom and vitality, but the free nation gradually constricting its grip on public discourse has begun its rapid slide into despotism. Beware he who would deny you access to information, for in his heart he dreams himself your master." - Commissioner Pravin Lal, "U.N. Declaration of Rights" (Sid Meier's Alpha Centauri)
