Corrian you are better than this

Puscifer-Bohemian Rhapsody

Not always, obviously.

Besides, you are listening to a very bland cover of a Queen song, you can't get on my case ☐

Maynard is awesome. Plus he was technically not allowed to make it better for some reason. I like Queen's better.

Tool-H

I like Puscifer, and I was listening to A Perfect Circle earlier, so I enjoy what Maynard does too. I just thought that was a pretty bland, straightforward cover. Was he really not allowed to do much with it? The coolest covers for me are the one's where people let them completely change it, not make it sound extremely straightforward and bland.

Carnivore - *Armageddon*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
