Man lands on AU Earth, called "Htrae", where society never progressed passed the caveman stage. He is worshiped as a god by the locals.

He whose true name is Jimmothy, would find his new kindgom being blockaded by the Hellenic Navy, as Greece views the secession of Crete to be unjustified.

Gerald invents a trans-dimensional teleporter and teleports himself into 1985 era USSR. He looks extremely similar to then-General Secretary Konstantin Chernenko and is accidentally escorted to Kremlin to continue his 'duties as a leader' because the KGB refuses to believe that Chernenko is dead.

Джеральд finally snaps after 5 years of being General-Secretary against his own will, and predictably, other Soviet officials refuse to believe his claims of himself being mistaken for Chernenko, and instead opted to off him out one way or another.

#02632 is enamored by Borat's hometown of Kuczek (totally not Glod in romania), after being taken on a trip to it, so much so that he starts considering just leaving his home country of Germany behind and spending the rest of his days in quaint and undisturbed peace over there in Kazakhstan.
