Elton John - Tiny Dancer
From *Madman Across the Water* (1971)

*But oh how it feels so real
Lying here with no one near
Only you and you can hear me
When I say softly, slowly*

*Hold me closer tiny dancer
Count the headlights on the highway
Lay me down in sheets of linen
You had a busy day today*

*Hold me closer tiny dancer
Count the headlights on the highway
Lay me down in sheets of linen
You had a busy day today*

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

Billy Joel - All for Leyna
From *Glass Houses* (1980)

*We laid on the beach
Watching the tide
She didn't tell me there were rocks
Under the waves
Right off the shore
Washed up on the sand
Barely alive
Wishing the undertow would stop
How can a man take anymore*

There's nothing else I can do

'Cause I'm doing it all for Leyna
I don't want anyone new
'Cause I'm living it all for Leyna
There's nothing in it for you
'Cause I'm giving it all to Leyna

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
