Mhm. Look above.

All NS Stats are canon.

Oh, and I guess you can make up anything else about this nation, like geography and such, based on your own imagination. I don't really plan on writing lore on this nation, at least for now.

The Northern Light Federation of Kors is a vast, orderly nation with very little population density, cold deserts of snow, worldwide auroras, a friendly population and huge social and scientific progression. It's nice, friendly and attractive populous of 3.5 billion citizens live very cheerful lives and love conquering interplanetary civilizations, giving them free science and snacks, and leaving for home with a Korsian flag on it. Korsian day-to-day life is pretty simple, they wake up and do their morning routine, earn money, come home for a hearty dinner, learn something new and have some fun. Korsians often hold multiple jobs and are among the most employed in the world.
