Minkey 1751 was arrested for bracking thee louw - playing the music without a lee-sonce. Although it seems like a harsh penalty for that crime, he was executed by a monkey-sized guillotine.

Monkey 1748 lost faith in monkey-kind due to how many monkeys cannot count.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin. Shockingly, we \*do\* use NS stats, with the exception of lifespan.

Monkey 1736 tried nasal irrigation with unboiled water. 'Twas an amoeba what did him in.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is

not used.
