I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

"Fuck the System" seems like the generic song title to be edgy and cool and offensive. I see that an awful lot

"You Fucking People Make Me Sick" on the other hand is cool

Nasum - The Political Structure Is Not What It Seems In The So Called Lucid View That Man Has Upon Today's Society. What The Eye Sees Is A Lie.

One of the longest song titles I've ever seen. Writing that title took longer than the song, which is 11 seconds...

If you think that is long...Here's the Red Sparowes tracklist for their album "Every Red Heart Shines Towards the Sun" (Very post-rock-sounding album name)

1. The Great Leap Forward Poured Down Upon Us One Day Like a Mighty Storm, Suddenly and Furiously Blinding Our Senses
2. We Stood Transfixed in Blank Devotion as Our Leader Spoke to Us, Looking Down on Our Mute Faces with a Great, Raging, and Unseeing Eye.
3. Like the Howling Glory of the Darkest Winds, This Voice Was Thunderous and the Words Holy, Tangling Their Way Around Our Hearts and Clutching Our Innocent Awe.
4. A Message of Avarice Rained Down and Carried Us Away into False Dreams of Endless Riches.
5. Annihilate the Sparrow, That Stealer of Seed, and Our Harvests Will Abound; We Will Watch Our Wealth Flood In.
6. And by Our Own Hand Did Every Last Bird Lie Silent in Their Puddles, the Air Barren of Song as the Clouds Drifted Away. For Killing Their Greatest Enemy, the Locusts Noisily Thanked Us and Turned Their Jaws Toward Our Crops, Swallowing Our Greed Whole.
7. Millions Starved and We Became Skinnier and Skinnier, While Our Leaders Became Fatter and Fatter
8. Finally, as That Blazing Sun Shone Down Upon Us, Did We Know That True Enemy Was the Voice of Blind Idolatry; and Only Then Did We Begin to Think for Ourselves

Also all very post-rock-sounding song titles.

Huh, I have more room for YouTube favorites beyond 5,000 songs again...I wonder what changed it. 5,000 was the max so I really started just ignoring YouTube unless I had to use YouTube.
