Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

Kendrick Lamar – A.D.H.D

"I'm in the house party trippin' off my generation, sippin' cough syrup

Like it's water, never no pancakes in the kitchen, man

No wonder our lives is caught up in the daily superstition

That the world is 'bout to end, who gives a fuck? We never do listen

'Less it comes with an 808 (A melody and some hoes)

Playstation and some drank (Technology bought my soul)"

everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there

Definitely some good classics still, but I haven't exactly listened to many classics. Too busy listening to mostly modern music.

Kendrick Lamar – Ab-Soul's Outro

This album took a seriously horrible dip downhill half-way through.

Now it's going back up since the last song...seriously disappointed with that dip though.

It always seems to be the half-way point where an album with a decent to excellent start can either blow the top off or just completely fail...

Kendrick Lamar – HiiiPower

Dope song.

7.9/10. The last three songs saved it from a lower rating.

Stupid heat. I wanna live in the "Polar vortex" right now Especially since our pool is a tadpole home right now (Did that intentionally), and our pool pump doesn't work, anyway. And we got no money for a new one. And no air conditioning....
