Fringe Theme (Full)

It's quite nice if you like piano music.

Fringe is amazing. I've been trying so hard to find a strings remix of this theme, but it seems all Youtube likes making is "dubstep" "reimaginings."

Indeed, I love the show so much. Its creative and smart in ways you don't see in TV programming often.

Also, the twists and turns it makes are insane... I won't spoil it, but some of the things revealed are quite...unexpected. (Though not completely out of left field)

I am a little sick of Dubstep when it adds nothing to the music. It can be a nice way of giving energy, but some things don't really need that.

[Also, heres a nice revision of the theme.](#)

That is quite nice and old timely. Reminds me a lot of the Blues Brothers.

May have to see what else they've done...

It just feels incredibly "overdone"; I don't say that for the sake of being a hipster, moreso the fact that it just seems to be everyone and their mother's way of starting off a personal stab at remixing. So few dubstep arrangements are produced thoughtfully that I can't help not to expect much from them.

Yeah, overplay is a big issue with dubstep. Plus it wouldn't take long for you to get sick of it even if it wasn't so overdone. Plus many remixers seem to not really understand when dubstep should be used...

Yeah, it kinda does give that odd feeling of psuedo-nostalgia. ☐
I tried finding a longer version, but with no luck.

They are...
It actually seems like a better version of the original song...At least in my opinion.
Though some of the lyrics are...distracting from the tone.

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

That's part of the beauty of irony. I've come to kind of view these guys as a less overt parody band a la Weird Al.

I've always liked the Dragon age music. Bioware has been pretty good with that.

Though the game itself is another discussion entirely, and we shouldn't go too off topic...
