Monkey 1646 returned to mok and killed itself whilst in a state of confusion after the metamorphosis.

Taiwan is a country, Tianmen protests DID happen, and the Chinese government is a dictatorship. Deal with it.

Monkey 1644 kind of just disappeared from the TTMG thread. Who knows where he is, maybe he will appear in some other thread.

Monkey 1639 was the cop that fatally shot 1640. Twitter went up in flames after hearing a cop had killed someone, and he ended up getting doxxed after trying to defend his actions. Needless to say, he didn't last long.

Monkey 1633 was a member of the NSSTAES(NationStates Space Time Anomaly Eradication System), a multiversal organization tasked with keeping the thread multiverse anomaly-free, at all costs. Monkey 1633 was a prominent member of the organization, being apart of the BMD(Budget Management Department)and making some of the most important changes that benefitted the organization. Unfortunately, a core breach happened, sending a ton of anomalies into the NSSTAES station monkey 1633 was in. He was a valiant soldier too, destroying most anomalies with relative ease, but unfortunately, there were too many of them, and monkey 1633 was killed due to being overrun by anomalies. The station collapsed along with him, and the NSSTAES was never the same organization it was from before.

R.I.P. Monkey 1633, you will be missed.

Monkey 1631 dies of natural cases - at the airport, a pile of alligator-skin suitcases fell on him and crushed him. The owner of the suitcases was charged with endangering alligators and monkeys.

Monkey 1625, known for the discovery of the Mokes, was recently found dead by the hands of his discovery. Apparently, the Mokes believe 1625 caused the death of their respected leader, Moke 1621.
