All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

The Rolling Stones - I Got the Blues

From *Sticky Fingers* (1971)

*As I stand by your flame, I get burned once again
Feelin' low down, I'm blue
As I sit by the fire of your warm desire
I've got the blues for you, yeah*

*Every night you've been away
I've sat down and I have prayed
That you're safe in the arms of a guy
Who will bring you alive, won't drag you down with abuse*

*Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

Deep Purple - Soldier of Fortune

From *Stormbringer* (1974)

*But I feel I'm growing older
And the songs that I have sung
Echo in the distance
Like the sound
Of a windmill going round
Guess I'll always be
A soldier of fortune.*

*Many times I've been a traveller
I looked for something new
In days of old when nights were cold
I wandered without you
Those days I thought my eyes
Had seen you standing near
Though blindness is confusing
It shows that you're not here.*

The Rolling Stones - Waiting on a Friend

From *Tattoo You* (1981)

A smile relieves a heart that grieves

Remember what I said

I'm not waiting on a lady

I'm just waiting on a friend

Just waiting on a friend

I'm just waiting on a friend

I'm just waiting on a friend
