Boring, too much synth over birds/other natural sounds.

Synth hater!

[Lorde-Team](#)

My friend got me in a Lorde mood. So much for being productive on music listening.

Love the concept of this video and song.

No, I don't hate synth, hell, how could I like artists like Multipac or Cougar Synth if I hated synth? It's just the way it's executed here.

Or, I'm not sure really. A few albums that don't have all the songs so I'm not keeping them unless they do. I'll listen to those albums on YouTube if I feel like it.

And there's some from way back in the day (their first album) I'm not sure I want to listen to or not.

Ugh, I don't know why so many albums have like all but a couple of songs...
