Just your basic wretched hive of scum and villainy.  
Pro: Bacon, Pittsburgh Steelers, 80's Music, Star Wars.  
Anti: Salad, Denver Broncos, One Direction, Justin Bieber, The "Brony" fad.  
**Yes, I know that it's spelled "Tatooine" and not "Tatooene," but the correct spelling was already taken, so don't bug me about it.**

Lorde-Tennis Court

If I'm listening to Lorde right now, it is because I'm on the laptop in the living room listening to music while screwing around and hanging out with family. It doesn't even scrobble it to Last.FM out here because it isn't set up on this computer.

If I'm listening to anything new, it is because I'm in my room.

Kreuzweg Ost - *Kohlenklau*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

### Time to dive head-in to the CLASSICAL MUSIC!

#### Richard Wagner - Die Walkure - Ride of the Valkyries

Going through 3CD compilation called "Dark Side of the Classical Music". Basically classical music that influenced rock and metal genres. First disc is called Classical Heavy Metal, second one is Classical Death Metal and third one is Classical Speed Metal. Despite the names, there's absolutely no metal found here, it's all classical.
