OOC- Any other states presenting themselves as representing all or part of the nation of Tropico from the series of City Builders are not operated by me nor are they canon to Estado de Tropico's lore. The existence of such states as have been founded on or after the 18th of October 2021, seemingly in response to my activity, have done so without my consent, but are permitted to do so by virtue of Tropico as a general country not being the unique and original intellectual property of any NS player. Nonetheless, their existence, being conflicting with my own, should be interpreted as taking place in a separate universe, as Nation States is multiversal, and no claims of accomplishing or attempting secession or other seizure of power from or by Estado de Tropico are true.
