I need to play this game. Have it sitting around. Forgot how awesome this soundtrack is and the games styled like an old school RPG or something.

I think it is more styled over old RPG style, so I can see why it may not be for everyone.

I like a huge variety of games...Sometimes I think too much for my own good because I could be looking forward to the latest game about a dude with powers while also being excited for an awesome-looking racing game and the latest cool indie game.

I enjoy RPGs which I can munchkin the hell out of. Power-gaming is the way!

You would like this song since you're listening to RPG music.

RPG-sounding music with black metal vocals....interesting. I think I actually liked it, despite my common opinion on black metal vocals.

If that is black metal vocals...not exactly knoweldged in the genre.

I didn't know what genre Summoning is so I was surprised to find out it's black metal. Black metal can be beautiful too.

[Summoning - Long Lost To Where No Pathway Goes](#)

This one is also awesome. It's a nice surprise to find Summoning in my quest to fill the void my CoF cravings leave me.
