Monkey 1222 dressed up as a crocodile, secretly boarded a plane, and scared many of the passengers. He would then be paralyzed due to being crushed by the ensuing stampede, and eventually die when the plane he was on crashed due to sudden weight imbalance.

Monkey 1219 learned from a sketchy fortune teller that it was doomed to a life of inane boredom. In an effort to avoid this, it attempted to commit suicide by throwing itself off the top of its house. Unfortunately, it was a one-story condo, and the monkey lived. However, it broke its neck in the fall and was paralyzed from the neck down. Due to it living in a nation with outlawed Euthanasia, the monkey spent the next fifty years of its life staring out a window. Eventually, it died of a urinary tract infection that went undetected until it reached the monkey's kidneys.
