Bring Me The Horizon - Can You Feel My Heart (Synth & FX Stem File)

This actually sounds really good on its own. All the details are clear and it has this dark mysterious vibe which you don't really get in the full song.

Bring Me the Horizon' style of music is the kind of style that has always got on my nerves for some reason, but listening to this song of theirs, it is at least MUCH more interesting then what I usually hear out of that style.

Kayo Dot-The First Matter (Saturn in the Guise of Sadness)

You may like Deathbeds, it's one I'm liking so far.

Here Comes the Sun - The Beatles

Alas yonder woman, damn you tempt me with thy saucy bosom  
thus methinks I shall bestow my codpiece in thee & make naughty love to my lady all night  
Please haste hither & quench this torment fairest maiden

They're pretty much the only one the bands from my "scene kid" days I still love. Don't know why they get so much shit, although a lot of people in those kinds of groups have started appreciating them more after their last two albums, which have experimented a lot more with atmosphere and melody.

There's so much worse as far as shitty mainstream metalcore goes.

The Band Played Waltzing Matilda-John Mcdermott It's a song about wwi, the battle of Gallipoli

“

They collected the crippled, the wounded, the maimed  
And they shipped us back home to australia  
The armless, the legless, the blind, the insane  
Those proud wounded heroes of suvla  
And as our ship pulled in to circular key  
And I looked at the place where my legs used to be  
I thanked christ there was no one there waiting for me  
To grieve and to mourn and to pity
