NKVDism, the belief that the reds can somehow sneak into your capital and kill billions with a single bomb meant for a foreign monarch.

**THE DOMINION OF EYJAFJALLA** • "In one, two, three. We'll put them out of their misery!"

Ah, the corporation! Lovely ain't it! A inherently autocratic organization blindly worshipped by nimwits worldwide as a force of freedom. Somehow not understanding it merely heralds the return of statist control under a different name. Eyja might not have much loyalty to it, but an opportunity to get on top is always welcome and to do it under the 'guise' of upholding liberty makes it all the more sweeter.

I'm not going to warn either of you officially but I will say that if you did this anywhere other than in F7, there would be Red Text all over the place. When you quote someone else's post and change the contents, you are required by the [Rules](#) to retain the original text. You can use Strike to show it or change the font color, but you have to leave it in place. Do not get into the habit of doing what you've done here elsewhere.
