Earth-The Multiplicity of Doors

Meh. Liked the first album of this sound, but having a 2nd part to this album really doesn't work. Especially when they literally do nothing to change their plodding sound to something, more, I dunno....interesting? It just sounds like the same done in a more boring way.

6/10. Gave the first part an 8, solely because it was my first introduction to the band. Might change once I re-listen to the other albums.

Dude, the world doesn't hate you. It doesn't give two shits about your suffering either, though.

I don't love the new album like so many people seem to. But their other 3 are IDM/Downtempo masterpieces.
