Maximum security, life Imprisonment, and isolation. Allowed 2 phncalls a year, watched and recorded by our top trained guards and staff. Also forced to repay all damages.

Killing the ruler/president/dictator/other.  
Or for anarchy: 3rd degree murder. (They didn't mean to kill them and had no violent intent)

Like... With arisaka rifle? Oh, that's totally fine by us! Not a crime. There was even a huntin' and fishin' blogger, who hunted different animals with arisaka rifle!

Luring a pack of stray, flea infested dogs into police station.

Sky Reavers are retconned Skyhooked. A bunch of crazy, wild everpartying semi-anarchists, who are resistant to cold, heat and diseases, can process booze like hell. MT/PMT tech. Wanna know more or have a request? It's here: <https://forum.nationstates.net/viewtopic.php?f=23&t=505973>

Remember, the fact, that we are semi-anarchy doesn't mean, that ya' can go around and rob random people. We still got law and order, loose as they are.

The individual would be charged with insurrection as well as first degree murder charges for each and every person killed during their rebellion. Our country doesn't have the death penalty so they'd spend the rest of their life in prison with no chance for parole.

"Betraying" the government is kinda impossible here, since we don't have any real enemies. For trying to kill the leader, 100 Lashes, just like if any person was attempted murder

There is only the world nation in our realm, but theoretically other realms can be accessed though the rifts so technically an individual could connect to a foreign signal if they can somehow get the connection past the rift security point. If this act is done then you would be subject to a loyalty exam. If you pass then no consequences plus job offer for some of the shadier government jobs. Otherwise expect to receive some torture "special treatment" and possible time in a holding center and/or execution. And if you couldn't tell we are indeed authoritarian. Libertarian Authoritarian, specifically.

Vigilante Activity? BN: What is your punishment for this act that undermines the state and its monopoly on violence?

A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;  
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Humanity First!
