Monkey 391 discovered a secret KGB archive center with a copy of the 433 Program. 391 then turned it into a contagious virus and sent it to China. It reproduced quicker than a truckload of horny cockroaches.

391 was then bombed to death by Xi Jinping and his boyfriend, Kim Jong-Un. 393 was in the radius of the explosion and also died.

Monkey 390 typed in the United States government website's address then random characters into the search bar and then was shot in the back of the head by a CIA agent secretly behind his window when it redirected to a secret document.

Monkey 386 escaped the train, and then fell into a zoo. He would proceed to live the last years of his life in captivity, regretting his choice and wishing he could die as children spat candy at him.

monkey 385 tried to ram 384 with a car, he missed and was thrown out of his car, breaking through the windshield. that would've only lead to some injuries... if he hadn't crashed into the local soup manufacturing plant. As he flew into a vat of boiling soup, as they say

Monkey 382 knew his turn to die was coming next, so he took a storage disk and gave it to 381 alongside a node "pass it along." 382 was soon shot by a KGB agent.

Monkey 378 soon noticed the storage disk outside of 379's door after hearing about the poor monkey's tragic and untimely accident. 378 put the disk in an envelope, walked across the street, and put it in the mailbox to be delivered to 376.

On the way back, 378 was decimated by an ice cream truck.

Monkey 374 was a police officer and found the data storage disk that murdered 376. 374 grabbed it and went to put it into his car for evidence, but tripped on a stick and punctured his stomach. He died 4 hours later.

Monkey 371 was working at a morgue when he realized the papercut victim was holding a package. He gave it to his grandma, monkey 370.

371 then had 16 strokes and evaporated.
