КУРСК - Черная Дыра

Finnish doom metal band singing in Russian.

Interesting. I bet that is an interesting mix of accents.

Why?-Brook & Waxing

Only about 2 albums to go....

Maybe, I don't know any Russian so I can't tell.

КУРСК - Сталинград

My favorite song of theirs.

Killing Joke - *The Gathering*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has

already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

I've played enough/heard enough Russian accents from the STALKER games and Metro 2033 and Metro: Last Light games to know that Russian accents sound awesome. But I don't know the language itself.

Made a Russian character in an RP, too.
