"Wandering Ghosts" composed by Michiru Yamane.

It's been a long day. That, and I'm too lazy to add a link.

"It was a piece of shit but I enjoyed it. What more do you want?!"

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much

proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
