Their parliament has a left-leaning and right-leaning faction, but also possesses a sizeable 'crossbench' population made up primarily of 'common-sense' types that prefer to solve problems through compromise.

Godular maintains negative relations with New Dornalia, a nation described by the Framework as a 'trigger-happy' country that loves 'gun hentai' (?) and has a big amount of 'psychopathic catgirls'.

Dozens of people have defected to this exiled Nazi state, and participate in propaganda and diplomacy. People who try to move into the Haudegen Reich are usually arrested by Interpol.

While some believe that the name of "Hatsunia" refers to the story that the Hatsunese language was the first to be spoken in the world, in reality it refers to Hatsunia's geographical position, putting it on the east of, say, China, which makes it so the first sounds of the day are heard in Hatsunia before they are in Asia.

I would pick on the other stuff, but I really have to talk about the bloodline of Ijsbrecht III Alfbading, King of the Frisians.

Interesting that he has the roots to Brian Ua Briain and Karl Karling. The names are... certainly interesting, to say the least. 🤔

Also interesting that Ijsbrecht himself is a cynical man, and given the time period that he is in, I certainly don't find it harmful to exercise a little bit of cynicism.

-----

AN: As much as their factbooks have the content, the fact that there is no space between the punctuation gives me an eyesore, and unfortunately makes it a chore to read.

Of Occitania's nearly 7 million-strong military, only ~840,000 are active. That alone makes them larger than most militaries IRL, but *within their own world*, they're not even close to the "largest", though they're still large enough for power projection and what have you.

The point of divergence from our timeline appears to be the creation of a South German Confederation led by Austria to counter the Prussian-led North German Confederation, resulting in a permanently divided Germany.

The popular image of the downtrodden and conformist *salaryman* doesn't exist in Hatsunia, whose corporate culture favored a more hands-off approach to promote individual ambition and fruitful ventures.

AN: They have an actually biological caste system of sorts, which is close to that of ants or termites.

The eyepatch-wearing Sultan was once target of a coup attempt by his own brother, who was presumably executed after the failed coup. He was injured severely. Also, his full official regnal title is an entire paragraph long.

They, surprisingly enough, *don't* control Nazi Germany at its height, and of their eastern Reichskommissariat, only Ostland still remains, and even then half of Ostland has been wrested by the Soviets -who also have half of The General Government as well.

The endonym of Hatsunia is "Hatsune-koku" which translates to 'land of the first sounds.' This refers to the far-eastern position of the country similarly to Japan's nickname of 'land of the rising sun.' Further, the name "Hatsune" by itself is never used to refer to the country in Hatsunese, but is often used in its adjective form.
