Primate 4830 was in this genocide, but was not granted the rank of Monkey.
Outraged, they joined the Sith, so Obi-Wan did what he must.

Monkey 4829 said they never watched star wars, causing them to be crushed to death under a mountain of people demanding that a star wars watching party be set up so they would watch it. The monkey's flattened corpse was made to watch the entire series.

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.

Of course, this information is of absolutely no consequence to anyone.

Brave sir Monkey 4823 was mashed into a pulp, had his eyes gouged out and his elbows broken, had his kneecaps split, and his body burnt a way, and his limbs all hacked and mangled Brave Sir Monkey.

His head smashed in and his heart cut out and his liver removed and his bowels unplugged and his nostrils r*ped and his bottom burnt off and his pen15...

Monkey 4821 attempted to enter the Cave of Caerbanog. It was guarded by a beast so foul, no man has stood against it and lived. Bones of four-fifty men lay strewn about its lair! Doom awaited the monkey, with big nasty pointy teeth.

Monkey 4820 shot an FMJ round at a steel plate, which bounced off the plate, hit a tank of propane inside a shed, the tank exploded, shrapnel from the shed struck the monkey, the monkey is pinned to the ground by a large piece of wood stuck in him like a thumbtack, a tree falls down from the force of the explosion, and the tree falls on the monkey, and monkey 4820 is flattened beneath it.

Monkey 4819 attempted to enter a castle with a wooden rabbit - unfortunately, he hasn't inside it.

Needless to say, it was shortly flung at him, crushing him top-down in the process.

Monkey 4818 violated Wabbitism's only executable rule (Serial Copyright Abuse), and was executed via burning at the stake (which is the main execution method in Wabbitism).

Monkey 4816 died of starvation because he's a vegan in a world where every single food item has copious amounts of spam spam spam and spam.

4812 ordered a "Cup of Donkey Kong" from SCP-294, and the machine emptied his bodily fluids into a coffee cup. He died from loss of blood.
