Especially since our pool is a tadpole home right now (Did that intentionally), and our pool pump doesn't work, anyway. And we got no money for a new one. And no air conditioning....

Damn, sorry dude. ☐
How hot is it there?

85, with a humidity of 50%...

80 to 85 in Sacramento doesn't feel that bad. Here? Bleh. It is all the humidifies fault.

It has the possibility of getting into the 90's, too ☐

Average this time of year for Washington: 75. It is supposed to be like 80+ and sunny on the entire upcoming forecast.

But at least it feels cool-ish at night. And foggy in the morning...Thought that was kinda weird with it being so warm.

Edit: Can't freaking type today.

DMX - Get It on the Floor

That's not what I'm listening to atm, but the current song is about to end. ☐

Ah, nothing more lovely than the dog barking like a psychopath and knocking down the curtains while you're trying to listen to music... Even on a different floor with the door to the room closed and headphones on with the volume at 42%, I could still hear her. ☐

Eh, that's pretty hot.

Though cooler than it's been in Chicago, with the exception of the past week or so (70s to lower 80s). Looks like the average in Chicago

is about the same as Washington, surprisingly (thought it would be in the 80s, though for some areas it is).

DMX – Bring The Noize

An appropriate song title considering what just happened. ☐

Bitcrush-post

Jumping from different band to different band to give my self more of a variety than just re-listening (or quickly flipping through) everything by one particular band.

Not sure how good this guy was overall, but he had some pretty abnormal, impressive post-rock moments.

First song was kinda weak after a re-listen.
