A United States that expanded into space after an alternate historical event where space aliens invaded Earth in the first half of the 20th century.

I would probably have ended up living there out of the circumstances of my birth, but if I had more control of my situation I would probably not choose to live there.

Like people, Lilguay and its Factbooks are all works in progress. Just be nice and enjoy the creativity, wit, and escapism of yours and others fantasy nations, civilizations, and worlds.
