The Statue from Super Metroid

intended replacement nation for United State of America  
(original the character donut steel)

*Who is in control of those in control?*

Why does Ben Lee (who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.

Is that supposed to be a retort? Wikipedia is downright *terrible* with music.

Hym, Isis.

Well, like I said, I have no idea what really counts as a reliable genre or not, and what ones are really pointless and not. I'm sure there's plenty of pointless ones. Like I've found nothing in particular that seems to make Post-Metal different then any other metal.

This may be where they get the 'dance' influence I saw.
