Nothing happened to Monkey #133, but for continuity reasons, the monkey still died.

Just a new user, nothing special.

Monkey 131 was an Artherian monkey kid that worked on naval workshops for the Kriegsmarine. He was crushed by a metal beam while constructing a ship for the Westralian navy.

Monkey 122 said it was actually monkey 11 squared, and it was summarily torn apart by a roving swarm of math teachers.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.

Monkey 116 had a very peaceful life in **Calicambria** until he lost everything in

into homelessness in South Cal. He died a sad death, but no one cared in the
