Repulsion - Satan's Whores

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Sounds different. Interesting.

It reminds me of Lotus, but with a different atmosphere to it.

Dir En Grey - Lotus

I've found South Park funny a few times (Loved the World of Warcraft episode), but that just seemed...stupid in my opinion. Not my type of humor.
