lords, the sword

aw ye

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I love covers. Especially if it's not in the same way that the original song was done.

Huh covers?

Most of the time covers are meh, but there are definitely good covers. And some that I like more than the original. Me never really being much of a Beatles fan in the first place, I [like](#) this cover more than the original. And I actually quite like it, because it's the perfect 'relaxing' song I can enjoy. Most of the time I prefer a really high-quality, more 'technical' song, but sometimes just a good chill, relaxing song is perfect for me. Which this song fits perfectly.

This song is beautiful, in a sad way. Yes, it says "Happiness", but the songs not exactly that happy. But I find it beautiful. It'd be a good song for a funeral or something.
