All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Wow. This is excellent. Progressive metal from Tunisia with tones of Arabic/middle eastern folk influence. Makes me want to headbang in the Arabian desert. Catchy too.

I saw "Progressive metal from Tunisia" and decided I need to check that out, after I'm done with what I'm listening to. I love checking out music from around the world.

Have you listened to the instrumental metal band Al Qaynah that's from Afghanistan? All their music is free. They sadly only have like 4 songs.

Aww man, I was hoping he wouldn't sing in English ☐

Not a bad song. Not sure if it really is my thing though.

Triptykon-Shatter

Kind of in a metal mood.
