The President used to be a mercenary, and has enacted legislation to allow mercenaries to act as soldiers, if they are registered.

I don't use NS stats, please refer to the factbooks. Terms to use: Cybus, Cybusian, The Infinite Cybusian Empire. Feel free to TG with suggestions, comments, feedback, questions, etc, especially about factbooks.

Out of everything in the annual national budget, the Diarcesian government spends the most on education. Over 20% of the government's funds are spent towards furthering that end.

695,000 km of land is used for agricultural purposes, making it the 6th largest agricultural country by land area (assuming similar stats to OTL), above Canada and below Brazil. Despite this the nation imports food stuffs due to it's vast, dense populace.

also there's something going on with their world map, like bits missing and added, might be from something called Heaven's Fall, but i can't find anything about it.

The country is on a continent called Mu off of the coasts of South Americas. They were colonized by several powers and have English as an official language. Their tallest mountain is called "Rainmore".

The territory that is known today as Tohorin was completely controlled by the Tohorinese Empire after it became a vassal of Spain after a war that lasted decades. In 1959, the western-friendly government in Tohorin was overthrown by disgruntled sectors of the Tohorinese military, resulting in the borderline dictatorial modern Tohorinese state of today.

Since PAS skipped someone and AN has nothing to offer....

@ Osean:

The International Coalition of Aces, also known as TICA, is a secret organization composed of aces from across the planet, the most known examples are Mobius 1, Cipher, Pixy, PJ, Gryphus 1, Warwolf 1, and countless aces, TICA was formed after the Lighthouse War as a form of keeping peace via going in sabotage missions to undermine, eliminate, and cover-up any possible threat to peace, the leader of this organization is none other than Mobius One, the ace of the Continental War, he is well-known across the IUN for his efforts in the two Free Erusea uprisings, the organization does not operate on a ranking system despite Mobius One leading the Organization.

So I learned about this, and while ignoring the pretty long sentence (I'm guilty of it too, so I'm not saying this negatively, hehe), the fact that there's an organisation of ace pilots helping defend the planet. Taking inspiration from Ace Combat, and with your own flavor, it's kinda like Overwatch or Rainbow Six as well, heh. The world could always use more covert heroes.

**What I found out:** It seems, that while the ruler is Slavic (Or at least has a Slavic name), they still wear a German uniform with iron cross, and all that jazz. A pretty weird choice, imo, but you do your thing. Also, she apparently has a disgust for people born on Earth (Terra is the Latin form of "Earth"), yet she also supports equality, along with freedom and liberty. So much for it, huh? I would expect such a disgust from a totalitarian, not someone who is in favor of equality. (Maybe there is some lore point about Terraborns which I don't know yet, tho) And last, but not least - she seems to have some diplomatic abilities, as she has befriended some of her enemies and rivals in the past.
