On an outside glance, I assumed they were the Khmer Rouge, but upon looking at the factbooks, they actually are Bulgaria. Anyways, they had a revolutionary war, in which a government was officially set up by the Bulgar Rouge.

On the 1 February 2017, Kokichi Oma launched his passive aggressive Re-revolution against the oppressive National government of Bill English. Every night, he and his 10 10,000 followers would sneak around parliament and throw eggs and toilet papers over the Beehive. There were instances when some members got caught, but Kokichi Oma always evaded his captors.

They are best described as a unitary parliamentary democratic republic with elements of direct democracy . The Thallandic government is made up of divisions called "cantons" with small amounts of autonomy and recognize the Thallandic government. The most unique part of Thallandic government is that there is no single president, prime minister or chairman. The executive branch is the Tribune, a group consisting of the Founder and eight people democratically elected to the tribune by the people. The tribute is the central authority that is both head of state and government.

AN:

"Classical" Cults of Personality

It is generally accepted that influential Socialist leaders and writers, usually of the 20th Century, the likes of Luxembourg, Lenin, Stalin, Marx, and Engels, etc. are "immortal saints" of the Revolution. These saints are also treated as such. The Obliteration of the Self remains in vague conflict as to the fate to which any of these saints are actually to be revered, and it is generally agreed upon that each is to his own. Some Faith denominations believe that these saints are reincarnations of their very gods, whilst some believe them to be mere instruments in god's greater plan.

Oh dear god, no....

But, are Hoxha, Deng, Khrushchev, and Tito considered saints too?

They are Asians if they all confederated into one big super-state under a communist dictatorship and then tried to conquer the world for some reason.
