Corrupt dominant-party African republic

The Dominion of Upper Nan: a technologically-advanced technocratic, national-syndicalist state where the people are mostly left to their own devices and given generous benefits so long as they obey the (numerous) laws and don't get any clever ideas about challenging the State's authority or bringing back democracy.

Largely inspired by *Judge Dredd*, Plato's *Republic*, and the political philosophies of Juan Perón and (to a lesser extent) António de Oliveira Salazar.

Cult of personality

This nation is modeled on being my absolute worst dystopia imaginable. In no way do the Annihilators reflect my opinions, in fact I am totally against almost every single policy they enact.

I support insanely high tax rates, do you?

I honestly really like to write issues.
