Agressor - *Voices From Below*

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Chrisye - *Damai Bersamamu*  
From *AkustiChrisye* (1996)

*Aku termenung di bawah mentari  
Di antara megahnya alam ini  
Menikmati indahnya kasih-Mu  
Kurasakan damainya hatiku*

*Sabda-Mu bagai air yang mengalir  
Basahi panas terik di hatiku  
Menerangi semua jalanku  
Kurasakan tenteramnya hatiku*

*Jangan biarkan damai ini pergi  
Jangan biarkan semuanya berlalu  
Hanya pada-Mu Tuhan tempatku berteduh  
Dari semua kepalsuan dunia*

Elton John - *Circle of Life*  
From *The Lion King: Original Motion Picture Soundtrack* (1994)

*Some of us fall by the wayside  
And some of us soar to the stars  
And some of us sail through our troubles  
And some have to live with the scars*

*There's far too much to take in here  
More to find than can ever be found  
But the sun rolling high through the sapphire sky  
Keeps great and small on the endless round*

*In the circle of life  
It's the wheel of fortune  
It's the leap of faith  
It's the band of hope  
Till we find our place  
On the path unwinding  
In the circle, the circle of life*

Ed Sheeran - Photograph

Napalm Death - *Protection Racket*

**CVT Temp wrote:**  
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
