They're still ruled by an emperor, and support a vast French colonial empire. They also use Latin along with French.

They exist on an island roughly the size of Tanzania, but with a small population of seven millions. I wonder why there's not any more of them.

They are formerly known as The Federation of North Germany yet are more commonly referred to as The North German Confederation.

I use NS policies and economic power. That's all.

They have their own distinct versions of the trans and lesbian flags

Out of curiosity, are you a trans lesbian?

Their ground forces favor high mobility due to the large amount of APCs and IFVs. Then again, this could simply reflect needs of the size of their army and the area they have to cover.

Apparently, they are actually called 'Nation Name', and they cte'd 17 days ago. On a more serious note, 64% of their population follow 'Mixed folk Catholicism'.

I am very interested to see you expand on this, is it similar to the mix of Catholicism and native beliefs practiced by many Puebloan peoples, or is it a more formalized belief system like Peyotism?

I'm not! I'm a trans male. I wanted to try my hand at the trans flag, and went for it with the lesbian flag because there is still no agreed upon flag really.

Despite having numerous relevant political parties, their dominant party still maintains a significant majority in their parliament, with presumably no need for any sort of coalition.

The United States is one of the Great Powers, being the second most powerful nation, specifically. Their might is largely thanks to their military and industrial sectors.
