I must warn I'm the same, so stay away, I've caused alot of blackouts within the time I live once again.

But just the thought of getting a huge hand thrown at me is something I feel cautious about. Though I doubt we will ever be in such a reason to ever fight.

I've also counted many times of her musical abilities, I'm sure she would enjoy the company of our AI they have been seen singing at times, much like little fairies, or mini sirens.

"Hmm. His is a story steeped in corpses. Which is fitting, given the title. He has killed, time and time again... to an end that seems to have been justified, in some part. So many have gone down similar paths, only to have all that they have sacrificed be ultimately reduced to dust. This First King, conversely, appears to have well and truly built something for himself and his people by means of his blood trail. It remains to be seen whether it'll last. Really, to judge him as a murderer would be hypocritical - suffice to say that I can respect all that he has done. I hope he finds peace with his life, when it all finally comes to an end."

"Ah, a more... conventional leadership figure. Almost surreal, in a sense - all these regimes, untouched by atomic fire... it's as if I'm in a museum. The President strikes me as a caring woman, and yet not a pushover. In that, I see certain benefits, from a leadership standpoint... but I wonder. Does she have the strength for decisive action, if the times call for it? Can she set her derisions aside for the good of her nation, even if it means getting blood on her hands? An interesting conundrum. Of course, I doubt it'll move beyond merely that - her nation seems well-established enough. But... conflict is a

fickle thing. One is never truly safe from it."

The Reverend is a leader that seeks to retain a sense of mystery around their operations. As such, we cannot say much about this leader. The Reverend appears to be skilled at turning chaotic political arrangements into more orderly ones, which we value. If the rumors of his extended lifespan are true, then he becomes an even more interesting individual. Combined with the fact that his planet appears to have suffered a series of nuclear cataclysms, this leads us to consider their planet a medium-priority assimilation target.

But if he decides to assimilate us agaisnt our will... we gonna have to put on the show of resistance and fight like hell. Otherwise, Skyhooked wouldn't be Skyhooked.

Something off about him. I don't know if it's his rather... Turbulent family history, or well, like Ennio-san said, that he has literally gotten most of his titles and achievements from either dead people, or sending people to certain deaths. That's the problem with democracy, unqualified people voting for other unqualified people just because they're popular, whilst the actual experts are ignored. Now, I can see him having some value as an entertainment figure, but politically, he seems to be quite worthless. Perhaps his running-mate simply took him to boost his own popularity amongst voters."

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.
