"Nihil" - Aquilus

My word, I'd forgotten how good an album this is.

Are these "human rights" in the room with us right now?

At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

King Crimson - Epitaph

We do not speak Arabic, are not in anyway related to Arabs, and are separate from Arabs in every way, both in real life and game-wise. Calling us Arabs would be the same as bringing under question our legitimacy.

I'm kind of late on the whole 20/20 Experience, I like it. FutureSex/LoveSound is still his best though, a hard to match pop album at its finest.

The 20/20 Experience got insanely hyped in the hipster circles

Internet hype mostly, it's not a bad album. But some people who only listen to top 40 are suddenly amazed that there are amazing albums aswell and not only songs.

About to listen to *Watch the Throne*.

Not talking about people who listen to the top 40. Pitchfork has been sucking JT dick for months now, and I'm on a music site which is full of hipsters and they all obsessed over it.

Earl Sweatshirt - Centurion

I wouldn't say I'm obsessed, I used to be with FutureSex/LoveSound for a while. But there are always people liking artists more because of ratings or that they are popular.

Chance the Rapper - Cocoa Butter Kisses (ft. Vic Mensa & Twista)

Favorite mixtape of this year.

Didn't say you were. Was just saying that that album was a rare example of a mainstream pop album being hailed in those circles.
