Sorry if I came off that way in the factbook, but that's not even the main cause of why it "came back" (albiet in name only after 2051). The main causes were a combination of a growing plutocracy causing long sustained slippage of the middle class to the lower and homeless classes, an oil crash causing everyone's life to go to hell, cultural differences whether good or bad, and a political (and for that matter, actual weather) climate somewhere in the 110s of degrees. That was just there to explain why *it* came back (note emphasis) rather than them coming up with something new.

Only one historical event of irl history was changed, that being a variation of the Battle of Hastings in which King Harald was victorious. After which the whole of English history was changed.

Compared to the state England (not Britain) is in now, the Restored Danelaw is *different* but not "earth-shatteringly" so. The same major "English" beats (again, not British) are still present in some capacity (i.e. you've still got Shakespeare and Newton and a variation of London)

Unlike most nations that go balls-to-the-walls bat-shit insane with their AUs, yours doesn't. Yours is realistic.

The Shtetan economy is intentionally designed to stagnate over time, as the state's creators believed that such a design would be the only way to create a functional eco-socialist state. Additionally, one of the guiding concepts of Shtet as a whole is devolution along cultural lines rather than geographic ones, which helped to inform this economic policy.

Their country is a nomadic society made up of a number of clans, each of these subdivided further into tight-knit bands of no more than fifty individuals. These clans have recently, as in the past thirty years, been unified into a single nation by Oloughin son of Kemoughin.

The state religion of WF is Roman Catholicism even though only 45% of the population practice it. While the other half is Protestant and there's a very miniscule minority of Muslims coming from Indonesia.

So the clan's plan for the future is just to continue raiding and pillaging like the Mongols instead of integrating to another civilized civilization.

† The State of Lazarie †

#### Lumière du Pacifique (1965)

- Set in the world of **TNO** in the backdrop of an Axis victory, Lazarie is a former Vichy French protectorate-turned Imperial Japanese collaborationist state in the southern Pacific.
- A kingdom and an odd Francophone among the Co-Prosperity Sphere; it attempts to do its best to maintain its autonomy and quasi-democracy from the empire's hands. Ruled by an Orleanist branch in this Pacific island and the Japanese garrison stands on guard for any "OFN incursion".

They are the protectorate of Imperial Japanese after WW2  
???????

How did Japanese even fking win against Juggernaut like USA? HUH  
In reality, they just want to achieve quick victory against America by just taking Hawaii and rest usa-owned pacific islands

All Japan had to do was to maintain their current advantageous position from

1943 until 1945 as they achieved naval superiority in the Pacific.

What?

The more i delve into your stuff, the more i want to blast my anger on some alternate WW2 axis victory bs

Anyway, thats some good writing but well it is kinda NONSENSE, WW2 Axis win scenario was basically biggest joke.

Dont take this seriously.

The Eternal Mur is a form of esoteric archive and library. Maintained by a "True Human" called Rayet, it contains literally - *literally* - all of the knowledge of the universe. The Eternal Mur is not a dead building, however, but a living, sentient being spanning its own dimension, feeding and maintaining knowledge. It is older than the known universe, and no one really know how it got here - however, the Harmonic Empire insists it constructed the Eternal Mur as a propaganda piece and show of technological and magical prowess.

Much like Israel, they're Jewish, conscript for the army and have efficient agriculture. Unlike Israel...well, everything else: they're in Europe, have good relations or at least neutral ones with most of the international community, carries out steady-state economics (for eco-socialism purposes), and has a maglev!?

They venerate the 'Sky Mother', which is something of a misnomer, as the entity truly described seems to be the void within which the universe exists... or maybe she's their version of the 'Firmament'... either way, it is unique in its own way.
